DE SABLAGE  
(TECHNIQUE DE LETTRAGE)  
SUR VITRES

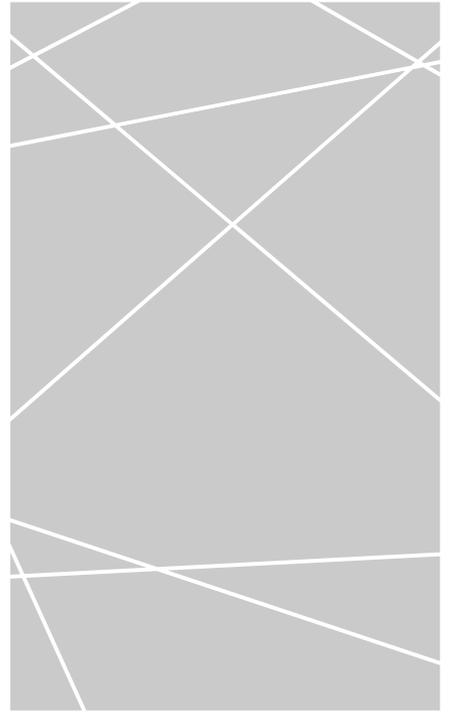

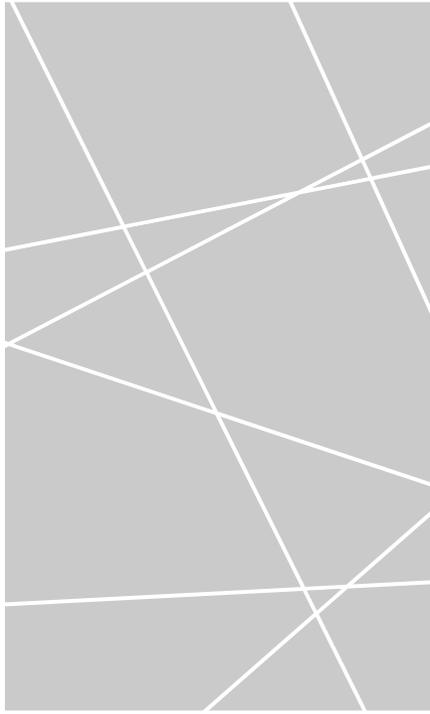

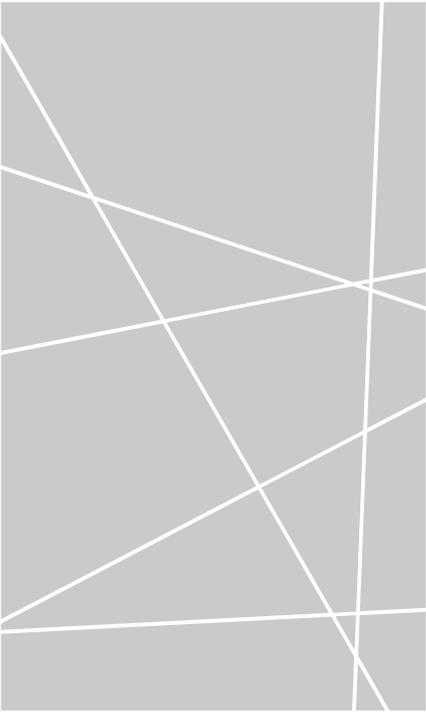

Le sablage est une technique artisanale de personnalisation du verre qui permet de lui donner un aspect opaque et satiné, tout en laissant passer la lumière naturelle. C'est une solution idéale pour préserver l'intimité sans obscurcir un espace.

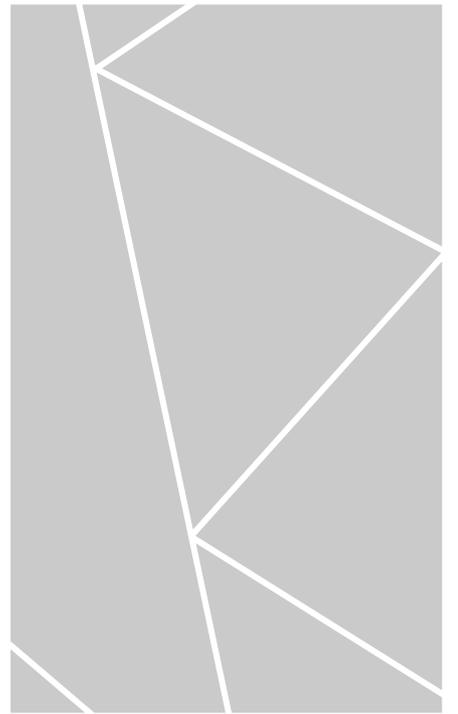

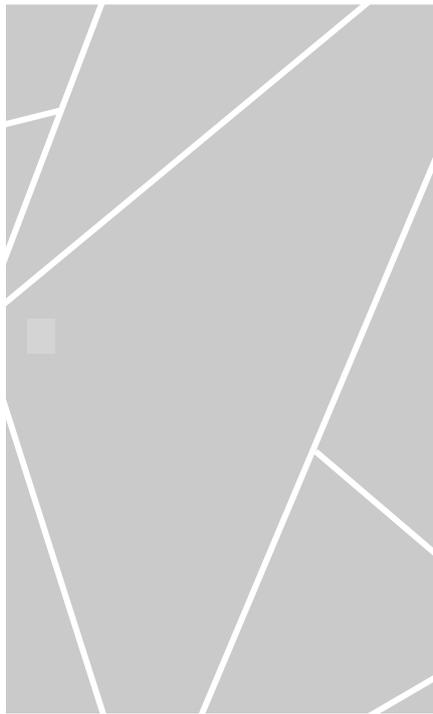

Que vous soyez un professionnel à la recherche d'une vitrine distinctive, ou un particulier désirant sublimer un espace, ce catalogue a été conçu pour vous inspirer.
